# Audit risks

# Audit risks

## Our response to significant risks

We have set out the significant risks identified for the current year audit along with the rationale and expected audit approach. The risks identified below may change to reflect any significant findings or subsequent issues we identify during the audit.

	What is the risk?	What will we do?
<b>Management Override of Control</b>	<p>As identified in ISA (UK and Ireland) 240, management is in a unique position to perpetrate fraud because of its ability to manipulate accounting records directly or indirectly and prepare fraudulent financial statements by overriding controls that otherwise appear to be operating effectively.</p> <p>We identify and respond to this fraud risk on every audit engagement</p>	<p>We will:</p> <ul style="list-style-type: none"><li>• test the appropriateness of journal entries recorded in the general ledger and other adjustments made in the preparation of the financial statements;</li><li>• review accounting estimates for evidence of management bias, and</li><li>• evaluate the business rationale for significant unusual transactions.</li></ul> <p>We will utilise our data analytics capabilities to assist with our work, including carrying out testing on the Income and Expenditure accounts and journal entry testing. We will assess journal entries for evidence of Financial statement impact management bias and evaluate for business rationale.</p>
<b>Financial statement impact</b>		
Misstatements that occur in relation to the risk of fraud by management override could affect the income and expenditure accounts, alongside significant balance sheet accounts where key estimates are processed.		

## Other areas of audit focus

We have identified other areas of the audit, that have not been classified as significant risks, but are still important when considering the risks of material misstatement to the financial statements and disclosures and therefore may be key audit matters we will include in our audit report.

### What is the risk/area of focus?

#### Pension Asset Valuation

The Local Authority Accounting Code of Practice and IAS19 require the Council to make extensive disclosures within its financial statements regarding its membership of the Local Government Pension Scheme administered by West Sussex County Council.

The Council's pension fund asset is a material estimated balance and the Code requires that this liability be disclosed on the Council's balance sheet. At 31 March 2017 this totalled £28.3 million.

The information disclosed is based on the IAS 19 report issued to the Council by the actuary to the County Council.

Accounting for this scheme involves significant estimation and judgement and therefore management engages an actuary to undertake the calculations on their behalf. ISAs (UK and Ireland) 500 and 540 require us to undertake procedures on the use of management experts and the assumptions underlying fair value estimates.

### What will we do?

We will:

- Liaise with the auditors of West Sussex County Council Pension Fund, to obtain assurances over the information supplied to the actuary in relation to Mid-Sussex District Council;
- Assess the work of the Pension Fund actuary (Hymans Robertson) including the assumptions they have used by relying on the work of PWC - Consulting Actuaries commissioned by Public Sector Auditor Appointments for all Local Government sector auditors, and considering any relevant reviews by the EY actuarial team; and
- Review and test the accounting entries and disclosures made within the Council's financial statements in relation to IAS19.

## Audit risks

### Other areas of audit focus

We have identified other areas of the audit, that have not been classified as significant risks, but are still important when considering the risks of material misstatement to the financial statements and disclosures and therefore may be key audit matters we will include in our audit report.

#### What is the risk/area of focus?

##### Valuation of Land and Buildings

The fair value of Property, Plant and Equipment (PPE) and Investment Properties (IP) represent significant balances in the Council's accounts and are subject to valuation changes, impairment reviews and depreciation charges. Management is required to make material judgemental inputs and apply estimation techniques to calculate the year-end balances recorded in the balance sheet.

In the prior year we identified a material error relating to the overstatement of the valuation of The Orchards Shopping Centre head lease.

#### What will we do?

We will:

- Consider the work performed by the Council's valuers (Wilks, Head & Eve), including the adequacy of the scope of the work performed, their professional capabilities and the results of their work;
- Sample testing key asset information used by the valuers in performing their valuation (e.g. floor plans to support valuations based on price per square metre);
- Consider the annual cycle of valuations to ensure that assets have been valued within a 5 year rolling programme as required by the Code for PPE and annually for IP. We have also considered if there are any specific changes to assets that have occurred and that these have been communicated to the valuer;
- Review assets not subject to valuation in 2017/18 to confirm that the remaining asset base is not materially misstated;
- Consider changes to useful economic lives as a result of the most recent valuation; and
- Test accounting entries have been correctly processed in the financial statements,

## Audit risks

### Other areas of audit focus

We have identified other areas of the audit, that have not been classified as significant risks, but are still important when considering the risks of material misstatement to the financial statements and disclosures and therefore may be key audit matters we will include in our audit report.

#### What is the risk/area of focus?

Earlier deadline for production of the financial statements

The Accounts and Audit Regulations 2015 introduced a significant change in statutory deadlines from the 2017/18 financial year. The timetable for the preparation and approval of accounts will be brought forward with draft accounts needing to be prepared by 31 May and the publication of the accounts by 31 July.

These changes provide risks for both the preparers and the auditors of the financial statements.

The Council now has less time to prepare the financial statements and supporting working papers. Risks to the Council include slippage in delivering data for analytics work in format and to time required, late working papers and internal quality assurance arrangements.

As your auditor, we have a more significant peak in our audit work and a shorter period to complete the audit. Risks for auditors relate to delivery of all audits within same compressed timetable. Slippage at one client could potentially put delivery of others at risk.

To mitigate this risk we will require:

- good quality draft financial statements and supporting working papers by the agreed deadline;
- appropriate Council staff to be available throughout the agreed audit period; and
- complete and prompt responses to audit questions.

If you are unable to meet key dates within our agreed timetable, we will notify you of the impact on the timing of your audit, which may be that we postpone your audit until later in the summer and redeploy the team to other work to meet deadlines elsewhere.

Where additional work is required to complete your audit, due to additional risks being identified, additional work being required as a result of scope changes, or poor audit evidence, we will notify you of the impact on the fee and the timing of the audit. Such circumstances may result in a delay to your audit while we complete other work elsewhere.

#### What will we do?

We will:

- Work with the Council to engage early to facilitate early substantive testing where appropriate.
- Provide an early review on the Council's streamlining of the Statement of Accounts where non-material disclosure notes are removed.
- Facilitate faster close workshops to provide an interactive forum for Local Authority accountants and auditors to share good practice and ideas to enable us all to achieve a successful faster closure of accounts for the 2017/18 financial year.
- Work with the Council to implement EY Client Portal, this will:
  - Streamline our audit requests through a reduction of emails and improved means of communication;
  - Provide on-demand visibility into the status of audit requests and the overall audit status;
  - Reduce risk of duplicate requests; and
  - Provide better security of sensitive data.
- Agree the team and timing of each element of our work with you.
- Agree the supporting working papers that we require to complete our audit.

03

## Value for Money Risks

## Background

We are required to consider whether the Council has put in place 'proper arrangements' to secure economy, efficiency and effectiveness on its use of resources. This is known as our value for money conclusion.

For 2017/18 this is based on the overall evaluation criterion:

"In all significant respects, the audited body had proper arrangements to ensure it took properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people."

Proper arrangements are defined by statutory guidance issued by the National Audit Office. They comprise your arrangements to:

- § Take informed decisions;
- § Deploy resources in a sustainable manner; and
- § Work with partners and other third parties.

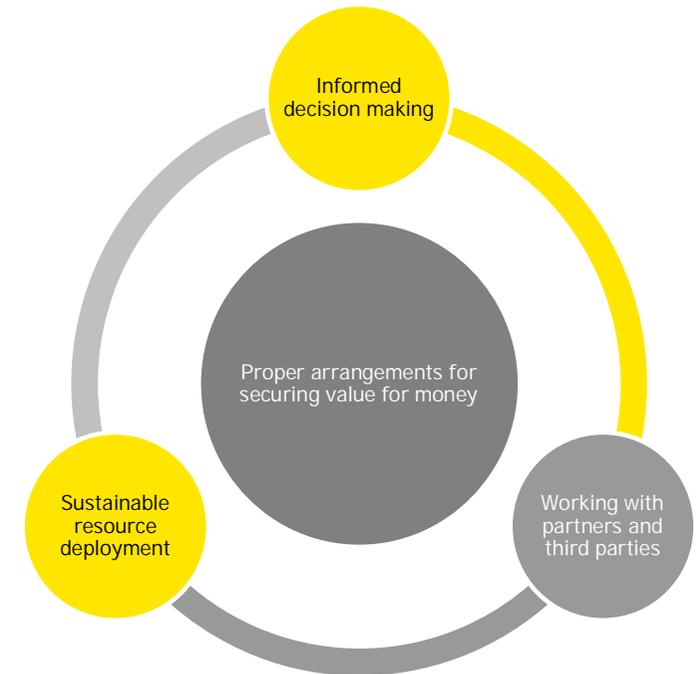

In considering your proper arrangements, we will draw on the requirements of the CIPFA/SOLACE framework for local government to ensure that our assessment is made against a framework that you are already required to have in place and to report on through documents such as your annual governance statement.

We are only required to determine whether there are any risks that we consider significant, which the Code of Audit Practice defines as:

"A matter is significant if, in the auditor's professional view, it is reasonable to conclude that the matter would be of interest to the audited body or the wider public".

Our risk assessment supports the planning of sufficient work to enable us to deliver a safe conclusion on arrangements to secure value for money and enables us to determine the nature and extent of further work that may be required. If we do not identify any significant risks there is no requirement to carry out further work.

Our risk assessment has therefore considered both the potential financial impact of the issues we have identified, and also the likelihood that the issue will be of interest to local taxpayers, the Government and other stakeholders. This has resulted in the identification of no significant risks.

04

## Audit materiality

## Materiality

### Materiality

For planning purposes, materiality for 2017/18 has been set at £1.3m. This represents 2% of the Council's prior year gross expenditure on provision of services, adjusted for non-cash items. It will be reassessed throughout the audit process. We have provided supplemental information about audit materiality in Appendix D.

We request that the Audit Committee confirm its understanding of, and agreement to, these materiality and reporting levels.

### Key definitions

**Planning materiality** – the amount over which we anticipate misstatements would influence the economic decisions of a user of the financial statements.

**Performance materiality** – the amount we use to determine the extent of our audit procedures. We have set performance materiality at £1.3m which represents 75% of planning materiality. The rationale for using 75% is based on the anticipation of identifying few or no errors during the audit. This expectation has been built on our experience of the Council in prior years.

**Audit difference threshold** – we propose that misstatements identified below this threshold are deemed clearly trivial. We will report to you all uncorrected misstatements over this amount relating to the comprehensive income and expenditure statement, balance sheet and collection fund that have an effect on income or that relate to other comprehensive income.

**Other uncorrected misstatements**, such as reclassifications and misstatements in the cashflow statement and movement in reserves statement or disclosures, and corrected misstatements will be communicated to the extent that they merit the attention of the audit committee, or are important from a qualitative perspective.

**Specific materiality** – We have set a materiality of nil for remuneration disclosures, related party transactions, members' allowances and exit packages which reflects our understanding that an amount less than our materiality would influence the economic decisions of users of the financial statements in relation to this.

05

## Scope of our audit

## Our Audit Process and Strategy

### Objective and Scope of our Audit scoping

Under the Code of Audit Practice our principal objectives are to review and report on the Council's financial statements and arrangements for securing economy, efficiency and effectiveness in its use of resources to the extent required by the relevant legislation and the requirements of the Code.

We issue an audit report that covers:

#### 1. Financial statement audit

Our objective is to form an opinion on the financial statements under International Standards on Auditing (UK and Ireland).

We also perform other procedures as required by auditing, ethical and independence standards, the Code and other regulations. We outline below the procedures we will undertake during the course of our audit.

#### Procedures required by standards

- Addressing the risk of fraud and error;
- Significant disclosures included in the financial statements;
- Entity-wide controls;
- Reading other information contained in the financial statements and reporting whether it is inconsistent with our understanding and the financial statements; and
- Auditor independence.

#### Procedures required by the Code

- Reviewing, and reporting on as appropriate, other information published with the financial statements, including the Annual Governance; and
- Reviewing and reporting on the Whole of Government Accounts return, in line with the instructions issued by the NAO

#### 2. Arrangements for securing economy, efficiency and effectiveness (value for money)

We are required to consider whether the Council has put in place 'proper arrangements' to secure economy, efficiency and effectiveness on its use of resources.

## Our Audit Process and Strategy (continued)

### Audit Process Overview

Our audit involves:

- Identifying and understanding the key processes and internal controls; and
- Substantive tests of detail of transactions and amounts.

For 2017/18 we plan to follow a substantive approach to the audit as we have concluded this is the most efficient way to obtain the level of audit assurance required to conclude that the financial statements are not materially misstated.

Analytics:

We will use our computer-based analytics tools to enable us to capture whole populations of your financial data, in particular journal entries. These tools:

- Help identify specific exceptions and anomalies which can then be subject to more traditional substantive audit tests; and
- Give greater likelihood of identifying errors than random sampling techniques.

We will report the findings from our process and analytics work, including any significant weaknesses or inefficiencies identified and recommendations for improvement, to management and the Committee.

Internal audit:

We will regularly meet with the Internal Audit, and review internal audit plans and the results of their work. We will reflect the findings from these reports, together with reports from any other work completed in the year, in our detailed audit plan, where they raise issues that could have an impact on the financial statements.

06

Audit team

## Use of specialists

When auditing key judgements, we are often required to rely on the input and advice provided by specialists who have qualifications and expertise not possessed by the core audit team. The areas where either EY or third party specialists provide input for the current year audit are:

Area	Specialists
Valuation of Land and Buildings	Wilkes, Head and Eve – RICS Registered Valuers
Pensions disclosure	EY Actuaries PWC – National Audit Office appointed actuary. Hymans Robertson – West Sussex Pension Fund Actuary

In accordance with Auditing Standards, we will evaluate each specialist's professional competence and objectivity, considering their qualifications, experience and available resources, together with the independence of the individuals performing the work.

We also consider the work performed by the specialist in light of our knowledge of the Council's business and processes and our assessment of audit risk in the particular area. For example, we would typically perform the following procedures:

- Analyse source data and make inquiries as to the procedures used by the specialist to establish whether the source data is relevant and reliable;
- Assess the reasonableness of the assumptions and methods used;
- Consider the appropriateness of the timing of when the specialist carried out the work; and
- Assess whether the substance of the specialist's findings are properly reflected in the financial statements.
