

TABLED AMENDMENT

COUNCIL – 27 JANUARY 2016

Agenda Item 7 - Coastal West Sussex and Greater Brighton Local Strategic Statement

The Coastal West Sussex and Greater Brighton Strategic Planning Board has asked that we clarify that the Council is being asked to endorse everything in the Local Strategic Statement up to Annex 4 (Monitoring and Delivery Framework) – which should just be noted. The reason is that the Monitoring and Delivery Framework is a living document that will be subject to change and update.

Annex 1 (page 51 on the agenda) is the Strategic Planning Board's Terms of Reference and Annex 2 (page 56 on the agenda) is the Memorandum of Understanding between the authorities. Both have been updated to add Horsham to the partnership and are otherwise unchanged from earlier signed versions. Annex 3 (page 62 of the agenda) is simply the record of all the authorities' endorsements of the LSS which will be completed once these have been obtained.

The recommendation should therefore be amended to:

“That Council formally endorses the Coastal West Sussex and Greater Brighton Local Strategic Statement and updated Terms of Reference and Memorandum of Understanding”.

The following textual errors in the LSS have also been picked up and will be corrected in the final version.

- Para 2.17 – change ‘publically’ to ‘publicly’
- Para 2.18 – bottom line remove ‘be’
- Page 18 – Table 1 – add ‘average’ in 4th column heading and take ‘average’ out of 5th column heading
- Page 23 - implementing spatial priority 1 number (4) add ‘Greater Brighton Project Pipeline’ so it reads “Work with the Greater Brighton Economic Board to ensure that the strategic priorities are aligned with the Greater Brighton Infrastructure Plan (and Greater Brighton Pipeline), Housing & Property Investment Plan and skills strategy as they are developed” rather than separate sentence.
- Spatial Priority 9 – take out bullet 5 as repeats earlier bullet.
