DISTRICT COUNCIL

Agenda Update Sheet

Planning Committee

Date: 11th August 2022

ITEM 5

Application DM/21/3405

P 14 – Mid Sussex District Plan

Add DP29 – Noise, Air and Light Pollution

P 25 – APPENDIX B

Environmental Health Officer comments:

The issue of “overlooking” and the “view” that Mrs Sedgwick-Smith is exposed to, I will leave to you to address.

In terms of the noise impact from the extension to the groundsman’s hut, the additional door appears on the eastern elevation, not the southerly elevation which would face St Johns. As an aside, the plans show that the window on the south elevation has been removed and boarded over. In any case, there is unlikely to be any adverse change to the noise environment as a result of this extension. The plans show that the room being created with an additional door on the eastern elevation is to be used to store boundary ropes rather than machinery.

ITEM 6

DM/22/1539

Recommendation:

It is recommended that consent for the works be granted subject to the condition at Appendix A (p.29)
