

AGENDA ITEM 5 – LINDFIELD COMMON TENNIS COURT UPGRADE CABINET GRANTS PANEL – 22 AUGUST 2022

Capital Project Justification Form

Lindfield Common Tennis Court Upgrade

Purpose of project:

To upgrade the existing tennis court surface at Lindfield Common, Lindfield which will greatly improve the playing experience as well as improve the safety of the courts overall.

The Courts are home to Lindfield Tennis Club who have, over the course of the last year, received negative comments regarding the condition of the courts from visiting teams and the Weald Tennis League.

The Club have over 170 members and have nine teams competing in league matches on a regular basis. These courts are also used regularly by local residents.

The four tennis courts were last resurfaced over 11 years ago and although previous patch and bonding repairs have helped to prolong the playing surface a full resurface is now required.

Mid Sussex District Council have an opportunity to upgrade the facilities which will significantly improve the standard of the playing surface and quality of play. The improvements to these courts will help to continue and increase the users' enjoyment and interest for the long term and to encourage more people to use the facilities (and not use other facilities) which will lead to an increase in income to the Council.

Costs:

Maximum Amount: £60,000

S106 Lindfield Rural Formal Sport Contributions

Land to the East of Gravelye Lane and North of Lyoth Lane (PL3-000199 – 12/04316/FUL):
£60,000

Capitalised Salaries included in the project total: N/A

Other sources of funding:(i.e., big lottery etc.) N/A

Revenue implications:

Improvements to the facilities will negate the need for revenue-funded patch repairs in the medium term, and ensure the courts continue to be booked and used by Lindfield Tennis Club members and local residents, meaning income is optimised.

Value for money assessment:

A do nothing approach and failure to invest will result in a decrease in usage and a reduction of income. Tennis Club members would likely look for new facilities with better playing surfaces. There would also be an increased risk of injuries potentially giving rise to insurance claims.

The alternative option is to close the tennis courts which would deny local residents the opportunity to take part in this popular game.
