

Appendix 1 - Copthorne Neighbourhood Plan Decision Statement – 26th July 2021

1. Introduction

- 1.1. Under the Town and Country Planning Act 1990 (as amended), Mid Sussex District Council has a statutory duty to assist communities in the preparation of neighbourhood development plans and orders and to take plans through a process of examination and referendum. The Localism Act 2011 (Part 6 chapter 3) sets out the Local Planning Authority's responsibilities under Neighbourhood Planning.
- 1.2. This statement confirms that the modifications proposed by the Examiner's report have been accepted, the draft Copthorne Neighbourhood Development Plan will be altered as a result of it; and that this plan can proceed to referendum.

2. Background

- 2.1. The Copthorne Neighbourhood Development Plan relates to the area that was designated by Mid Sussex District Council as a neighbourhood area in July 2012. This area corresponds with the Copthorne and Worth ward boundary that lies within Mid Sussex District.
- 2.2. Following the submission of the Copthorne Neighbourhood Development Plan to the District Council, the plan was publicised and representations were invited. The formal publicity period ended on Wednesday 24th March 2021.
- 2.3. Mr Andrew Ashcroft BA (Hons) MA, DMS, MRTPI was appointed by Mid Sussex District Council with the support of Worth Parish Council, to undertake the examination of the Copthorne Neighbourhood Development Plan and to prepare a report of the independent examination.
- 2.4. The Examiner's report concludes that subject to making the recommended modifications recommended, the Plan meets the basic conditions set out in the legislation and should proceed to a Neighbourhood Planning referendum.

3. Decision

- 3.1. The Neighbourhood Planning (General) Regulations 2012 requires the local planning authority to outline what action to take in response to the recommendations of an examiner made in a report under paragraph 10 of Schedule 4A to the 1990 Act (as applied by Section 38A of the 2004 Act) in relation to a neighbourhood development plan.
- 3.2. Having considered each of the recommendations made by the Examiner's report, and the reasons for them, Mid Sussex District Council in consultation with Worth Parish Council have decided to accept the modifications to the draft plan. Table 1 below outlines the alterations made to the draft plan under paragraph 12(6) of Schedule 4B to the 1990 Act (as applied by Section 38A of 2004 Act) in response to each of the Examiner's recommendations. The reasons set out have in some cases been paraphrased from the Examiners report for conciseness. This statement should be read alongside the Examiner's Report.
- 3.3. If a Local Planning Authority is satisfied that, subject to the modifications being made, the Neighbourhood Plan meets the legal requirements and basic conditions then it can proceed to Referendum.

Monitoring and Review of the Plan		
<p>Add a new paragraph (1.15) to the Plan to read:</p> <p>'The Parish Council will put measures in place to monitor the effectiveness of the policies in this Plan up to 2031. This process will underpin any decisions on the need or otherwise for the Plan to be reviewed and/or updated. The adoption of the emerging Site Allocations DPD will be an important milestone in the formulation of the wider development plan. In this context the Parish Council will assess the need for any review or update of a made neighbourhood plan within twelve months of the adoption of the DPD'</p>	<p>For clarity purposes.</p>	<p>Accepted</p>

<p>Policy CNP6 Assets of Community Value</p>		
<p>Delete the policy</p> <p>Delete paragraphs 5.7 to 5.11</p>	<p>The policy is appropriate in general terms. However, its approach is confusing for two reasons. The second is where the proposal would result in the development of local community infrastructure and be of an appropriate and limited nature, so as not to prevent the use, role and function of the local green space concerned'</p>		
<p>Policy CNP8 Parish Heritage Assets</p>		
<p>In Policy CNP8.1 replace 'possible' with 'practicable'</p> <p>Replace CNP8.2 with: 'The effect of a development proposal on the significance of a Parish Heritage Asset should be taken into account in determining the application. In weighing applications that directly or indirectly affect a Parish Heritage Asset, a balanced judgement will be required having regard to the scale of any harm or loss and the significance of the Asset concerned'</p> <p>The policy as amended will read as follows:</p> <p>CNP8.1 Development proposals will be supported where they protect and, where possible <u>practicable</u>, enhance Parish Heritage Assets as identified on the Neighbourhood Plan Policies Map. <p>7. Character Areas</p>		
<p>At the end of paragraph 7.4 add: 'Certain types of development may alter one or more positive aspects that make up the Character Area. This will be acceptable if its overall character and role is not compromised and measures are taken to limit any impacts through mitigation, and where possible, enhancement. For example, this may involve the strengthening of other positive aspects of the area's character or general enhancement to the area through increased biodiversity, green links and other mitigation measures. At the end of paragraph 9.12 add: ‘Policy CNP16.2 comments about circumstances where an existing parking space within a garage will be lost (for example by its conversion to habitable rooms or demolition) as a result of proposed development whether to the house concerned or more generally. In these circumstances the policy acknowledges this matter’

At the end of paragraph 9.15 add: ‘In this context Policy CNP16.3 address the underpinning nature of the policy approach which is to address the on-street parking in the neighbourhood area. There are two important factors at play in the neighbourhood area which will require a nuanced application of the policy approach. The first is that on-street parking in some areas (such as in Copthorne Bank) has a greater ability to generate safety and traffic flow issues than in other areas (such as might exist in residential streets well away from through traffic and commercial/community facilities). In this context applications for new development which can demonstrate that their impact on overall off-street car parking levels is minimal may wish to submit information to demonstrate that they can comfortably be accommodated within the West Sussex County Council standards. The second is that development to higher parking standards may result in the quality and integrity of its overall layout and format being too dominated by this one factor. This may have particular
