- Annotating and Editing Documents.
- Planning Application Decision Making for Members

If you have any problems with accessing the Learning Pool, please email committees@midsussex.gov.uk or 01444 477062.

Information and News

COVID-19 News

Covid levels in Mid Sussex have risen rapidly in the last week to about 360 cases per 100,000 which is around the level we had in mid-July and therefore remain high and caution is still needed in indoor settings. Hospitalisations locally and nationally are higher than in June 2021 and have been rising slowly over the last week and deaths nationally within 28 days of a positive Covid test still average over 100 per day and show recent signs of rising. The highest rates of Covid and increase in Covid levels remain in the school age population where regular testing is happening but Covid rates are now increasing across the population.

Average Covid rates across West Sussex have also risen rapidly in the last week to about 380 cases per 100,000 with rates in Horsham and Worthing now well above 400 cases per 100,000. The average Covid figure in England is now up to about 440 cases per 100,000. The average Covid rate in the South

East is now also up to about 440 cases per 100,000. These figures are similar to the highest case levels in July 2021. They remain lower than the levels seen in January 2021.

In most areas of England, Wales and Northern Ireland Covid rates are now back above 400 cases per 100,000 but in Scotland they are mainly below 400 cases per 100,000.

Lateral flow tests are available free to collect locally or request online by post so everyone can check their Covid status and take a PCR test if the lateral flow test indicates a Covid positive result.

People who are not double vaccinated are still required to self-isolate if they are asked to do so by Test and Trace or if they have been in recent close contact with someone who goes on to test positive for Covid. Those double vaccinated or under 18 are recommended to get a free PCR test in these circumstances but need only self-isolate if that test is positive.

About 80% of the population 12 and over in England and in Mid Sussex are now double vaccinated and about 85% of the population 12 and over have received a first vaccination.

All people 16 and over are still eligible for a Covid vaccination jab and encouraged to come forward with the second vaccinations being done after 8 weeks. Vaccinations can now be booked online for anyone 16 or over and plans are being made to allow those 12 to 15 also to use the walk in vaccination services.

Otherwise Covid vaccinations for all those aged between 12 and 15 are underway in secondary schools.

Booster vaccinations are being offered to those in the first 9 groups previously getting their second vaccination between March and June 2021, with the booster vaccination to be given about 6 months after the second vaccination was given. This means all those who had a second vaccination before May 2021 are now being called forward.

Annual flu vaccinations are now being offered through GP contact to older and vulnerable groups.

Please see the attached information on Covid vaccination progress in West Sussex.

Strategic Intelligence Assessment and Data Pack 2021

The Mid Sussex Partnership (MSP) annually considers a Strategic Intelligence Assessment to inform its priorities for the year ahead. This provides an analysis of information about the District, including data on crime, health, vulnerable groups and demographics. The 2021 Strategic Intelligence Assessment and supporting Data Pack are attached. These were discussed as part of the MSP Annual

Report considered by the Scrutiny Committee for Community, Customer Services and Service Delivery on 6th October and are also available on the Mid Sussex Partnership [page](#) of the Council's website.

Retail Study Launched – NEMS Market Research telephone survey

The Planning Policy and Economic Development Teams have jointly commissioned Nexus Planning to undertake a Retail Survey to inform the District Plan Review. From an Economic Development perspective, the Retail Study will provide important insight to the current use and role of our retail centres which will be particularly valuable as we consider the future of our high streets and how best MSDC, working with others, can best support them to flourish, in light of current economic pressures and changing consumer behaviour.

Part of the work will involve a telephone survey about shopping habits involving c.1000 residents in and around Mid Sussex which will be carried out by NEMS Market Research, which will start in the next couple of weeks (October) and we would welcome people taking part in this survey if they are contacted.

We will shortly be issuing communications on social media regarding the survey.
